The Day Who Was Lost.

"Did you lost yourself, love?" asked Mrs. Larkins, tenderly, as the hamster came in and he responded with the fact with a shrug.

"Yes," honest Larkins. "It was the men in the moon I hurt!"

Worse Than Us.

"Why, John, you made a mistake and put a lot of 'pot' in your paper."

Editor: You are mistaken, my dear, that is a Swedish dialect story.—J.W.

Housekeepers Should Remember

The great success of the Royal Baking Powder is due to the extreme care exercised by its manufacturers to make it entirely pure, uniform in quality, and of the highest leavening power. All the scientific knowledge, care, and skill attained by twenty-five years' practical experience are contributed toward this end, and no preparation can be made with a greater accuracy, precision, and exactness.

Every article used is absolutely pure. Chemists are employed to test the strength of each ingredient, so that its exact effect in

combination with its co-ingredients is definitely known. Nothing is trusted to chance, and no person is employed in the preparation of the materials used, or the manufacture of the powder, who is not an expert in his particular branch of the business.

As a consequence, the Royal Baking Powder is of the highest grade of excellence, always pure, wholesome, and uniform in quality. Each box is exactly like every other, and will retain its power, and produce the same and the highest leavening effect in any climate, at any time.

The Government Chemists, after having analyzed all the principal brands in the market, in their reports placed the Royal Baking Powder at the head of the list for strength, purity, and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

All chemical tests to which I have submitted it have proved the Royal Baking Powder perfectly healthful, of uniformly excellent quality, and free from every deleterious substance.

The best medical authorities say the proper way to treat catarrh is to take a constitutional remedy, like Hood's Sarsaparilla.

The Word Turns.—Editor: There are not enough teeth in this line air. The feet are not strong enough. It's a poem—not a word of wood.—Life.

In spite of all news items to the contrary, the oldest inhabitant is never dead.—Puck.

The monthly report that Blaine is to resign is followed by the usual denial.

Dept. Sam. M. Gaines' new daily paper at Lexington will appear about the 23rd inst.

The United States Treasury has drawn a warrant for \$60,641, from the amount due Kentucky for the general government.

A conjunction of the planets Jupiter and Venus occurred Saturday morning. They are still visible in the south-western sky in close proximity, very evening.

The Louisville Times' correspondent interviewed State Democratic Legislators and found 17 for Carlisle, 5 for Cleveland, 6 for Hill and 3 for Watson. Nearly all of the Carlisle men were for Cleveland second choice.

The recent cable correspondence with Chili cost us \$244 a word. Blaine's ultimatum alone cost \$2,000. Since the threatened war has been followed by a prospect of peace, and quiescence, the rate has been reduced to \$1.61 a word.

Thayer turned over the gubernatorial office of Nebraska to Gov. Boyd last Monday. The transfer was made with some show of bad feeling. Gov. Boyd refusing to take the hand of the usurper who has occupied his office nearly half of the two-year term.

The issue is made up on the silver question. The Democratic House decided to report favorably the Bland free coinage bill and the Republican Senate Committee has reported adversely the Stewart silver bill. Alliance people please take notice.

Another horrible hotel fire has occurred. The Hotel Royal, New York, was burned in the night time while 150 guests were sleeping in their beds. Sixty people are missing and 17 bodies have been recovered. A search of the ruins will be necessary to tell how many perished.

The burning of the Central Warehouse last Friday cost Louisville one of her best known tobacco men. Capt. W. S. Edwards who was burned to death while trying to escape from the building, was perhaps the most prominent man connected with the tobacco trade in Kentucky.

Maysville has not succeeded in counting herself into the list of third class cities. According to the convention which takes place Saturday at the Club, the President Judge Leavell happened to a serious accident last Wednesday, which kept him from attending prayer meeting that night and may permanently disfigure his personal pulchritude. While engaged in selling an unusually large hoghead of tobacco, he struck his jawbone and has since been unable to speak even the truth. I would recommend that a pension of \$4,000 per month be allowed Col. Edwards.

Col. McKee objected on the ground that Col. Leavell was not disabled. He could carry on his regular business and although he could not work his jaw to talk he believed that fact itself would bring his drug business and prove a blessing in disguise. Besides Col. Leavell is the other avowedly open to the public speaker and he is doubtless Col. Leavell could get a job at shooting off dynamite charges although he could no longer shoot off his mouth.

This spiffy speech of Col. McKee was followed by profound silence. It might have been thirty seconds, or maybe thirty one, before a member of the Club, the President Judge Leavell, spoke. "I am the first convention of the year, the first to be fired in the Presidential campaign."

Cadiz correspondent intimates rather strongly that Hon. Jas. B. Garfield is going to take Capt. Stone for the First District seat in Congress this fall. As an orator, Mr. Garfield stands head and shoulders above any man in his district.

Since they have been working in town the contractors have found it necessary to employ a man to explain to visitors the various matters not fully understood by the public. They were now trying to find a fool who would be willing to do so.

He spoke and he was doubtless Col. Leavell could get a job at shooting off dynamite charges although he could no longer shoot off his mouth.

This spiffy speech of Col. McKee was followed by profound silence. It might have been thirty seconds, or maybe thirty one, before a member of the Club, the President Judge Leavell, spoke.

Col. Leavell explained to the Club that his presence was due to the fact that the Chilian war had turned out to be a fiasco in the pan. He had fully given up his mind to help whip Chile, but found out after working himself up to a fighting pitch that Chile had given up the fight.

Col. Leavell was given leave to be used as soon as the campaign fireworks had been calmed off.

Col. Claggett was given leave of absence to visit Fairview next Sunday. And then the Club adjourned.

The Democrats of the Wards and Mass Committees have decided upon their policy to be pursued in tariff legislation this session. There will be no general bill but protection will be effected in its worst places by "Single Shot" bills, making coal, wool, salt, twine and other articles free. A general revision of the tariff will be deferred until the Democratic obtain a majority of the Senate and Presidency next year which they are reasonably certain to do.

"You may kiss me for 25 cents," was the legend borne on six cards, suspended by six strings, tied around the necks of six pretty girls at a dance in the Union Building, Louisville, last week. When the curtain was drawn displaying the aggregation of tempting sweethearts within the reach of all who possessed the necessary quarter, there was a temporary, painful blushing, broken soon by resounding snatches, giggling and the jingle of coins. The scene lasted only a few moments, but it was to the objection of some of the moreious present, but the church debt was wiped out.

The Teachers League to be held at St. Paul's Froggy's coffee Shop, 27, 1892, at 10 a.m. Paper of 20 minutes by Miss Jessie West, Subject, Shall scholarship alone be the teacher's test for the school room?

General discussion.

Report of the executive committee.

Le Froggy, chairman of committee.

THE BALD-HEADED CLUB.

"I find a number of instances upon the face of a story's being told that it is not true," said Vice-President E. A. Lyle, as he announced the Club ready for the transaction of business. "For instance is the application of Bob Woodbridge's account to the affair of the Club. That is, he believes Mr. Woodbridge's account to be enough to sustain the Club. The committee on Spence Phinney will take charge of this petition. If upon investigation it is found that said Woodbridge is losing his hair from sitting in damp churches or poorly ventilated parlors, as we have reason to believe, the committee can very safely recommend his admission, as I am satisfied he will not change his habit in this house to save his hair or to make even a baldness escape from his nose."

The Committee retired to consider its instructions, but failed to find the candidate in the ante-room, although they found the peg where his hat had been hanging. The Committee secured the services as guide of a young druggist familiar with the Club. This young man, who was found swinging on a front gate and commanding on the antenna, advised that Jupiter and Venus were keeping company seven days a week. "I would like to play a star engagement of that sort myself, if we can plan it." He was then asked to mark his card, and was induced to mark as he became visible to the naked eye of the Committee.

He was taken to see the newest electric light plant and an examination made, which revealed the fact that Robert was entitled to at least one degree in the order of Knights of the Shining Path. A report was made to this effect, accompanied by the recommendation that he be admitted.

He was then duly elected and regularly initiated to mark the honor of his Master, Col. Thompson, who, it is believed, to be a man of great ability, recommended him to the Committee.

Legislative Notes.

The Houses on Wednesday defeated a vote of 26 to 43 the bill raising the grand lottery limit from \$10 to \$20.

Gov. Brown is preparing a special message on the Eddyville penitentiary matter, which will be sent in this week.

The World's Fair Committee has received a letter from the Kentucky Building Association asking for a copy of the report of the Kentucky Building Association.

The shaking of the Kentucky Building Association, according to the report of the Kentucky Building Association, is to be enough to satisfy the Kentucky Building Association.

Bob Brown, the Courier-Journal correspondent, will return to Louisville and resume work on the Times, as managing editor, and will be succeeded at Frankfort by M. B. Morton.

The McCann Tobacco Bill has been favorably reported, Senators Board and Galloway dissenting from the committee's report. It was made a special order in the Senate for Feb. 25.

Jim Stone has returned from Washington. He did not get a place this time, but it is only a question of time when he will get one. His voice is too good a man to be confined within the narrow walls of the House Chamber at Frankfort.

The Courier-Journal truthfully says:

"Since he entered upon the duties of his office, Gov. Brown has had occasion to make a number of appointments, all of which have been highly satisfactory. He has been more popular than the name of his own boy Jack to be Assistant Superintendent at Anchorage. Young Dr. Brown stands high in his profession and has been flattered by every member of the fraternity in Kentucky. With the politicians he is equally a favorite and has been well received by the public, placing the choice of the Governor above and beyond all this personal, professional and political sanction, the pre-eminent capacity of Dr. Brown for the delicate duties imposed by his appointment, considered, initiated us to the wisdom of the nation in selecting the son of the author of the bill, and in two days I was able to secure my business and am now entirely satisfied with him."

As took another ramsey, I can but give all the credit to the "Ayer's Pectoral," which I greatly recommend and a special price for this disease.

PERSONAL Gossip.

Miss Della Coombs is visiting friends in Hopkins County.

Mr. A. V. Rutland returned from a business trip to Henderson yesterday.

Walt Gillingard, of Louisville, has been in the city several days on a visit to his parents.

Jas. West, of the firm of Gaiter & West, went to Hopkins county yesterday on business.

Mr. R. D. Ring, editor of the Hartford Herald, accompanied by Mr. W. T. Hayward, a prominent Hartford lawyer, came over to hear Ingalls lecture.

Vanderbilt Training School.

Hopkinsville ought to have this school because it would add indefinitely to the wealth of the city and county. There is no estimating the value of such an institution in our midst. It brings the best and most desirable people of the state here to educate their children. It anchises the value of property. It adds to the safety and health of the population.

The people who move here for educational purposes, will bring their money and their property here.

The tax value of property will be so increased that taxation will be reduced. Does any man

suspect that our experience with the public schools have not the power to raise the value of the houses in

increased over half a million dollars since our public schools were inaugurated? Has not our population increased over two thousand since that auspicious event? And did not the public schools bring in nearly a thousand additional population in a single year?

It is time now to begin a campaign to get the word out of what we can do for our community. The proposed Training School will bring a number of eminent educators into our midst. It will bring numbers of men with boys to educate. It will bring not less than a hundred boys to Hopkinsville that first year, who at the lowest point calculated, will lay down twenty thousand dollars in business the first year, thus reaching every avenue of business. It will cost that sum to board them. The supply stores alone would get about \$15,000 a year of that many students.

They will have to be clothed. They will need books. They will have to pay for their laundry. They will also have to be doctorized, if perchance, any of them should get sick on the way to our great health resort. The managers propose to put up a twenty thousand dollar building. It would be an ornament that no city could ignore. It would give us a reputation as an educational center. No one can estimate the advantages of a school, stand-point, and no man can estimate the actual cash which it would bring to our town. We must have it. We can do without it.

There will be a roasting meeting at the court house Friday night. Prominent local and foreign speakers will address the meeting. Let every body attend.
